My plan is to allow exceptions for folks with family members to reside off base. The only abuse I could see with this is if someone asks for an exception, but family is only going to be with them for a week. Same thing for pets. I'm not too worried though. I am trying to start with somewhat vague guidelines now until we figure out what works.

Thanks (b)(6) I'm sure I'll get flooded with questions from students about this. Here's a few that come to mind:

- Does this apply to married students who bring their spouse?
- What if they have pets?
- How liberal will you be with exceptions to this rule?
- Did something happen that prompted this, or was billeting simply losing money?

Cheers,

(b)(6)

(b)(6)

Please warn students planning on getting a crash pad here at Holloman the Wing Commander instituted a new policy mandating all US students to reside on base. This goes into effect for all classes starting after 1 Jan 16. If any ask, this policy change was already vetted by 49 WG/JA. Any exceptions to this policy have to be worked through the 16 TRS Director of Student Affairs.
